About Us

Java Day Istanbul is one of the most effective international community-driven software conference of Turkey organized by Istanbul Java User Group.
Our Mission

İstanbul Java User Group (JUG) consists of a group of Java professionals and enthusiasts who are interested in helping the Java Community since 2010.

Our main purpose is to convey latest industry developments and Java related technologies to developers by organizing regular meetups and workshops.

Implementing Microservices with MicroProfile Hands-on-Lab

Content

In this workshop you will learn about the MicroProfile programming model for developing microservice applications. Although MicroProfile is currently based on Jakarta EE technologies, the expectation is that this will evolve to unify the corresponding Jakarta EE technologies.

We will go through the APIs and implementations for:

- Configuration
- Fault Tolerance
- Health Checks
- Application Metrics
- Inclusivity
- Open API

Languages

- Java 11
- HTML 5.1
Pools Results

Do you know about Testcontainers?

- **Nothing**: 60%
- **Just Roughly**: 20%
- **Yes**: 20%
What do you use for enterprise applications?

- Spring Frameworks: 78.8%
- JakartaEE: 8.2%
- Others: 13%
What IDE do you use?

- IntelliJ: 66.7%
- Eclipse: 26.4%
- Netbeans: 4.4%
Which Java version are you using?

- Java 8: 55.3%
- Java 11: 24.7%
- Java 14: 10.7%
- Java 10: 2.7%
- Java 13: 2.7%
Your base OS for container?

- Ubuntu: 36.6%
- Alpine: 29.3%
- CentOS: 17.1%
- Debian: 7.3%
- Other: 9.8%
What did you like most about the event?

- The speakers!
- Rich content of sessions, anyone can easily find his/her most interested or eager to learn topic in them
- Speakers were excellent
- The topics are so up-to-date
- Subjects were well chosen
- Hands-on workshops
- As always, speakers
It gave us the opportunity to join the event remotely. Remote workshop is very effective. I liked it! The online training experience and streaming quality met above my expectations. The easy way of joining. Access to re-watch the videos is crucial. I liked competitions and quizzes mostly. It was very organised. Practicality. Schedule and time.

- Networking
- My favorite feature of the event was the networking tab. Talking the speakers there is a very good feature.
- It was so easy to contact with speakers.
Recommendations for improving the event?

- The schedule was a little bit tight
- Quality of streams
- It could be more interactive
- Maybe a smart app would be nice
- Sponsors Kahoot and Menti quizzes were such fun! Maybe you can encourage them to make more of them
- Networking time could have been shorter but more often
- The interaction among users, networking platform was not efficient enough
- Interaction was really poor, a 10 minute Q&A would be nice after each session
Q&A with Sponsors
Aşağıdakilerden hangisi NoSQL veritabanı tiplerinden değildir?

- Document Oriented
- Key Value
- Graph
- Row Oriented

Game joining: open
Attendees

The event targets professional software developers who work in mid to large-sized organizations and who develop systems of all sized companies.
Attendee Profile

- Senior Software Developer
- Expert Software Engineer
- Software Architect
- Software Crafter
- Software Developer
- Software Engineer
- Software Engineering Manager
- Software Specialist
- Software Team Leader
- Solution Architect
- Solution Designer
- Developer
- Co-founder
- Head of Technology
- DevOps Engineer
- DevOps System Engineer
- Engineering Lead
- Enterprise Architect
- iOS Developer
- Java Developer
- Lead Solution Architect
- Product Architect
- Tech. Architect
- Tech. Sales Engineer
- Technical Team Lead
- Technical Support Engineer
- Test Automation Lead
- Web Developer
Attended Companies

- Accenture
- Adesso
- Akbank
- Arap Türk Bankası A.Ş.
- Atlassian
- Bankalararası Kart Merkezi
- Barikat İnternet Güvenliği Bil.Tic .A.Ş.
- Bellsoft
- Bidolubaski.com
- Code4.Life
- Commencis
- Computas
- Craftbase Bilişim Teknolojileri A.Ş.
- D-MARKET Elektronik Hiz.ve Tic A.Ş.
Attended Companies

- Deloitte Digital
- Doğuş Planet Elektronik Tix ve Bil Hiz.A.Ş.
- Eclipse Foundation
- Ej İnternet Hiz. Dan.Eğt Reklam ve Org Tic A.ş
- Global Kapital Group
- Google
- Hazelcast
- Hürriyet Emlak
- IBM
- Ibtech Uluslararası Bilişim ve İletişim Teknolojileri
- ICterra Bilgi ve İletişim Teknolojileri A.Ş.
- Institute for Internet Security
- ioki GmbH
- iotTech Bilişim Danışmanlık
- iyzi Ödeme ve Elektronik Para Hizmetleri A.Ş.
Attended Companies

- JetBrains
- Kentkart Ege San. ve Tic A.Ş.
- KKB Kredi Kayıt Bürosu A. Ş.
- Koç Sistem A.Ş.
- Kod Gemisi

Josh Long (ジョン・ロング, Джош Лонг, Josh Long) @star... - 12 Eylül

I love this comment left on the talk I just gave (virtually) at @javadayistanbul:

adam şiir gibi kod yazıyor

which I am told means: “the man writes code like a poem”

thank you! / teşekkür ederim
Selim @tinybeaks · 15 Eyl
Attended my first developer conference last week and won a @jetbrains license. Thanks a lot - I really enjoyed it! @javadayistanbul @JetBrainsTR @ElmerYazilm

Gürkan Çalık @gurkan calik · 12 Eyl
When you can’t choose which one. @dchuyko @Kivlev @javadayistanbul #jual20

evrim HOUSE @evrim nurcelik · 11 Eyl
@AdamBien ve @javadayistanbul adlı kullanıcılarla yanıtlaryla all in all, we all thought it was a great, informative session. And all questions were answered in the end. So thanks a lot, can’t wait to check out more of your content!
