ONLINE CONFERENCE REPORT
10-12| SEP 2020

JAVA DAY

Istanbul
ISTANBUL
Java User Group

About Us

Java Day Istanbul is one of the most effective international community-driven software conference of Turkey organized by Istanbul Java User Group.
Our Mission

İstanbul Java User Group (JUG) consists of a group of Java professionals and enthusiasts who are interested in helping the Java Community since 2010.

Our main purpose is to convey latest industry developments and Java related technologies to developers by organizing regular meetups and workshops.

What did you like most about the event?

- The speakers!
- Rich content of sessions, anyone can easily find his/her most interested or eager to learn topic in them
- Speakers were excellent
- The topics are so up-to-date
- Subjects were well chosen
- Hands-on workshops
- As always, speakers
- **Networking**
- **My favorite feature of the event was the networking tab Talking the speakers there is a very good feature**
- **It was so easy to contact with speakers**

- **It gave us the opportunity to join the event remotely.**
- **Remote workshop is very effective. I liked it!**
- **The online training experience and streaming quality met above my expectations**
- **The easy way of joining**

- **Access to re-watch the videos is crucial**
- **I liked competitions and quizzes mostly**
- **It was very organised**
- **Practicality**
- **Schedule and time**

Recommendations for improving the event?

- The schedule was a little bit tight
- Quality of streams
- ıt could be more interactive
- Maybe a smart app would be nice
- Sponsors kahoot and menti quizes were such fun! Maybe you can encourage them to make more of them
- Networking time could have been shorter but more often
- The interaction among users, networking platform was not efficient enough
- Interaction was really poor, a 10 minute Q&A would be nice after each session

Attendees

The event targets professional software developers who work in mid to large-sized organizations and who develop systems of all sized companies.

Attendee Profile

- Senior Software Developer
- Expert Software Engineer
- Software Architect
- Software Crafter
- Software Developer
- Software Engineer
- Software Engineering Manager
- Software Specialist
- Software Team Leader
- Solution Architect
- Solution Designer
- Developer
- Co-founder
- Head of Technology

- DevOps Engineer
- DevOps System Engineer
- Engineering Lead
- Enterprise Architect
- iOS Developer
- Java Developer
- Lead Solution Architect
- Product Architect
- Tech. Architect
- Tech. Sales Engineer
- Technical Team Lead
- Technical Support Engineer
- Test Automation Lead
- Web Developer

Attended Companies

- Accenture
- Adesso

Josh Long (龙之春, जोश, Джош Лонг, جوش لونگ) ✓ @star... · 12 Eyl

I love this comment left on the talk I just gave (virtually) at @javadayistanbul:

adam şiir gibi kod yazıyor

which I am told means: "the man writes code like a poem"

thank you! / teşekkür ederim
